

Florida Principals

Assemblies, Inc.

Assemblies, Inc. is a manufacturer of precision microwave cable assemblies for military and commercial applications. High quality is achieved by using the best products from around the world and giving you expert service from the time you order to when your product is delivered.

Micro-Precision Technologies, Inc.

MPT manufactures high-quality metalized thick film substrates and provides complete assembly, functional and environmental testing for microcircuits on thick film substrates. Thick film capabilities include multi-layers of conductors, as well as super fine line/spacing up to 1-2 mils (0.001" – 0.002"), via through, via filled and plated.

Micro Harmonics

Micro Harmonics produces high-quality millimeter-wave isolators and circulators operating from 50 GHz to more than 330 GHz, optimized for extended bandwidth, and the industry's lowest insertion loss. All of our ferrite components are made in the United States of America.

Microwave Support Systems

Microwave Support Systems GaAs FET amplifiers, PIN diode switches, directional couplers, and microwave integrated assemblies to 18 GHz.

Sonoma Scientific

Sonoma Scientific manufactures high-quality RF/Microwave ferrite isolators and circulators Frequency coverage 40 MHz to 40 GHz. Designs to 4 KW CW or more. Low intermodulation products. Phase matching. Standard and special connectors or cables. Acceleration specifications to 40,000 G. High volume production capacity.

TechPlus Microwave

TechPlus Microwave is a state-of-the-art, innovative, Microwave RF filter provider specializing in cost-effective, high-quality microwave filters and assemblies. Also filters, duplexers, and multiplexers for a wide range of the wireless protocols.

Werbel Microwave LLC.

Werbel Microwave designs and manufactures power dividers, directional couplers, and other assemblies for use in communications and measurement applications.
